PROFESSIONAL SUMMARY

Detail-oriented and motivated Full Stack Developer with hands-on experience in building scalable web applications using Angular, React.js, Node.js, Express.js, Python (Django), and MySQL. Experienced in developing enterprise-level applications, RESTful APIs, CRUD operations, authentication systems, and dynamic frontend interfaces. Strong knowledge in database handling, stored procedures, and responsive web design. Passionate about learning new technologies and developing efficient real-world software solutions.

EXPERIENCES

UFS Technologies Pvt. Ltd | Aug 2025 – Present

Full Stack Developer

- Developed and maintained full-stack web applications using Angular, Node.js, and MySQL.
- Worked on enterprise solar management platforms including Vidyanexis and Luminous.
- Designed and implemented RESTful APIs using Express.js.
- Developed CRUD modules for customer, lead, quotation, and agreement management.
- Created and optimized MySQL stored procedures and complex SQL queries.
- Integrated frontend Angular applications with backend APIs.
- Worked on PDF generation, document handling, and reporting modules.
- Improved system performance and fixed real-time application issues.

Inmakes Infotech Pvt. Ltd | Apr 2024 – Sept 2024

Full Stack Python Intern

- Developed web applications using Django and React.js.
- Implemented authentication and CRUD functionalities.
- Worked with REST APIs and database integration.

Next Gen Employability Program (AICTE & Edunet) | 2024 – 2025

MERN Stack Intern

- Built MERN stack applications with MongoDB, Express.js, React.js, and Node.js.
- Developed responsive frontend interfaces and backend APIs.
- Implemented authentication and role-based access systems.

EDUCATION

Bachelor of Technology in Computer Science Engineering

April 2025

KMEA Engineering College – First Class

Higher Secondary Education - Jamaath HSS - 96%

March 2021

Secondary School Certificate - Queen Marys EMHS - 100%

March 2019

PROJECTS

Solar Management System (Enterprise Project)

- Developed a full-stack solar workflow management system.
- Implemented dynamic forms and data mapping features.
- Created stored procedures for multi-result data handling.
- Developed customer tracking, agreements, and lead management modules.

Deepfake Video Detection System

- Developed using Python, Flask, and Deep Learning.
- Detects manipulated and AI-generated videos using trained models.
- Integrated video upload and prediction modules.

Placement Management System

- Built using Angular, Node.js, and MySQL.
- Implemented student registration and job application modules.
- Added admin management and real-time data handling features.

Blogging Platform

- Developed using Angular, Node.js, Express.js, and MongoDB.
- Implemented full CRUD operations with authentication.
- Features include create, edit, delete, and personal blog management.

CERTIFICATIONS AND PUBLICATIONS

- **NPTEL Certification** – The Joy of Computing Using Python Issued by NPTEL & IIT
- **Machine Learning with Python** – Issued by IBM (via Coursera) – February 2025
- **MERN Stack Development Certification** – Issued by Edunet Foundation & AICTE (Next Gen Employability Program)
- **Deepfake Video Detection Using Deep Learning** – Published in International Research Journal of Modernization in Engineering Technology and Science (Vol. 07, Issue 02, Feb 2025) DOI: 10.56726/IRJMETS68382

SKILLS

- **Languages & Frameworks:** JavaScript, Angular, Node.js, Express.js, Python (Django), React.js, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Backend Expertise:** REST API Development, Stored Procedures, Complex SQL Queries, Data Modeling
- **Databases:** MySQL, MongoDB, MySQL Workbench, phpMyAdmin
- **Tools & Platforms:** GitHub, GitLab, VS Code, Postman
- **AI Tools:** ChatGPT, Claude AI, Google Gemini
- **Soft Skills** - Problem-Solving , Fast Learning, Teamwork & Collaboration, Adaptability

DECLARATION

I hereby declare that the above-mentioned information is true to the best of my knowledge and belief.
